he failed to properly quit his position via email not properly done since his private lawyer sued over him not legally being resigned under case law state law common law constitutional law; plus in pre trial discovery as veteran paralegal, notary public bonded as such as he was sole bonded trustee on college district board to wit; he was victim of racist plot to get him to quit before his 6yr term expired by rico wrongdoers defendants by unethical ex chair who undermined his election to board from day 1 of his 4/8/14 election his seat. by treating him improperly different from all other past current trustees that pre trial discovery frcp 37 revealed were deemed ineligible to serve or run for seats due work history as education employees;etc plus mec report not timely properly filed etc, also ferguson police dept was the local campus police service at our flo valley campus,where racist unfit rico boothill security manager hired over trustee brown objection due lack of job spec requirements etc, not being from racial diverse campus job before his illegal appointee seat by board trustee under 531rsmo not legally in office; all 5 had disqualification education job work history, thus only bonded trustee brown was in legal office stlcc;he legally would have served as chairman not ex chairs due legal cites; plus his trustee wish to have body cam blocked,his minutes of meeting will show unethical obstruction of his trustee duties to oversee his staff in chain of command as elected trustee denied his civil right to do his job!!!,had he had full legal elected board bosses like him,he would not need to seek federal court to take over taxing district due gross mismanagement unbonded board bosses then and now,in light he is suing to regain his seat to finish his 2020 term, via election 4/5/16 or lawsuit litigation pending under ussc rules on appellate review.16-1082 case law prayer for reliefs 531rsmo ousters, federal court takeover;order ferguson decree to apply to flo valley campus police dept too since overlap city and city police patrol college district too,.as findings of facts and legal conclusion of law invoked under this usdc judge order allowing written public commentations from members of general public to wit; it is undersigned police science& fire science expert opinion,commentation ,recommendations in the proper administration of justice and improved public safety in near future to circumvent a repeat mike brown ferguson incident .thus these professional comments to the federal court and us district judge presiding on this case law matter of law question of law ;could should would take heed to the ;professional expert opinion of the whos who in american law book listee selectee since 1980s90s to currently listed more time than famous lawyer f lee bailey in legal circles as famous chief & famous black male paralegal ex county law dept paralegal,past blackstone school of law student 80s and who attended the slu- mo bar mini law school classes past severals at st louis law school as an alumni student under the mini law school for general public that he tried to enroll this yr 2016 but his plate was to full filing lawsuit for his prayers for relief ;since he has 90 day to file writ on stlcc district lawsuits protracted litigations as pro se litigant civil right advocate for law and order. and to mentor rookie cops to prevent bad cops like darren wilson from being darren wilsons renegade cops in future recommend IACP set up program of season cops seperated from service to teach at various police academy as guest instructors to help solve the police dept brain drain currently at academies to stop rookie cop training rookie cop??season veteran deemed needed to properly train and give insight in proper police sop.sog needed example wilson was not properly trained in 1st place as rookie,no properly trained season policeman like myself would do want he did period.in all my trainings from rookie to veteran police boss over hiring firing as a original member international assn of chiefs of police would i have tolerated one of my policemen doing want he done giving us good cops bad name under damage controls mode now!!thus our image now need fixing due to him and other unfit cops. who deemed overbearing, officius, unethical, stiff shirts,who have anger management problems which a good police manager should have weeded out his maladaptive tendencies, by properly supervising him under 1st line supervisions to see the tall tale sign this cop was not good police material in 1st place by properly using employee performance evaluations to weed him out for good of the dept the public. thank god when i hired my policemen trained by policemen, oversaw my policeman under my command i did not have such a bad apple. as such my trustee attempt to get rid of bad apples was undermine by unbonded trustee that would not a good cop if they saw?? plus take one to know one per se??see motion made stlcc by trustee brown to address the ferguson factors concernning my sevice time on board of trustee trying to do my job as expert in overseeing public safety conc ems as bossman too not able to fire unethical unqualified staff in section 178.862rsmo not complied with in the 6 month mandate not able to enforce over my trustee powers to do?;sincerely county committeeman theod brown central committee sgt at arms officer elected peace officer countywide all 28 county townships, won 4/8/14 trustee seat stlcc district subject lawsuit by plaintiff pro se;connote; offered to take drug test and have same done by all campus police failed as motion 1st yr board of trustee membership ;connote closed session board sec manager bashed me as bossman to get body cams as boothill ex sec guard manager he opposed this decree issue; also see my letterhead to board to get this done as trustee to no avail etc,also if my college dist recommendation granted judge &parties of decree concerning adding campus police dept too??in light they collaborate on police calls with city police ferguson fyi;
